DAVIYA CARE FOUNDATION

DAVIYA ELDERLY CARE HOMES

ASSISTED LIVING • SENIOR WELLNESS

Care that feels personal.

A senior-friendly assisted living environment built around comfort, safety, everyday support and holistic wellbeing.

OUR GUIDING PHILOSOPHY

“Small Family is a Happy Family.”

AT A GLANCE

8–10	24×7	3	360°
RESIDENTS PER FACILITY	NURSING SUPPORT	NUTRITIOUS MEALS	HOLISTIC CARE

Daviya Elderly Care Homes is a specialised assisted living home for senior citizens, operated by Daviya Care Foundation. The care model focuses on the body, mind, spirit and emotions, with personalised and tailor-made support in a deliberately small residential setting.

DAVIYA CARE FOUNDATION | DAVIYA ELDERLY CARE HOMES | DELHI NCR

01 | THE DAVIYA MODEL

A holistic approach to assisted living

Designed to combine everyday assistance, wellness routines, nutrition, mobility support and medical care within a small, personalised residential environment.

WHAT WE BELIEVE

Senior care should feel like living in a small, supportive family - not like being one resident among many.

THE DIFFERENCE IS IN THE DELIVERY

01

SMALL BY DESIGN

All Daviya facilities in Delhi NCR have occupancy of not more than 8–10 persons, creating a more intimate care setting.

02

PERSONALISED CARE

Every occupant is given personalised and tailor-made care based on day-to-day needs and requirements.

03

HOLISTIC WELLBEING

Care extends beyond physical needs to include mental, emotional and spiritual wellbeing through wellness routines and supportive living.

SEVEN PILLARS OF CARE

01

COMFORTABLE LIVING SPACES

Fully furnished, senior-friendly accommodation with spacious, well-ventilated rooms designed around comfort and safety. Washrooms feature anti-skid tiles and senior-friendly equipment. In-house laundry and trained housekeeping support the living environment.

02

YOGA & MEDITATION

Mornings begin with chair yoga, a gentle low-impact exercise designed for seated movement or use of a chair for balance. Evenings include a deep meditation session. Sessions are conducted by trained instructors.

03

DAILY ACTIVITY ASSISTANCE

Daily support includes assisted bathroom routines, grooming and dressing, with appropriate clothing. Meals are served according to dietitian advice and medical requirements, while medication reminders and administration are handled by experienced staff in a controlled manner.

04

NUTRITIOUS THREE MEALS

A qualified and experienced dietitian plans nutritious meal schedules for each individual, taking health requirements and restrictions into account. The in-house FSSAI-approved kitchen serves healthy meals on time.

02 | SERVICES & SUPPORT

Care across the everyday moments that matter

The operating philosophy is simple: provide practical assistance, consistent support and a responsive care environment while keeping residents in a small community.

05

MOBILITY ASSISTANCE & PHYSIOTHERAPY

Residents are supported with mobility as required, with care focused on reducing fall risk. A trained physiotherapist is engaged regularly to conduct exercise sessions intended to support mental and physical health.

06

24×7 MEDICAL SUPPORT FACILITY

Qualified and trained nurses are available round the clock for regular check-ups and medication administration. Empanelled doctors are available on call, including when medical attention is required during emergencies.

07

COMPREHENSIVE CARE AT A REASONABLE PRICE

Daviya brings together 24×7 attendant support, medical care, food aligned with medical needs, physiotherapy, yoga, meditation and recreation at a reasonable price.

THE CARE PROMISE

DAVIYA ELDERLY CARE HOMES

A specialised assisted living home for senior citizens where body, mind, spirit and emotions are considered together in the pursuit of health and wellness.

The aim is not simply to provide accommodation, but to create a supportive residential environment where care is personal, routines are structured and residents are treated as individuals.

8–10

MAXIMUM OCCUPANCY

per facility in Delhi NCR

CORE POSITIONING

COMFORT

Senior-friendly accommodation and practical daily support.
